Clitheroe the Future

Walk No 3
Edisford Bridge to Little Mitton
a circular walk of
4 miles ~ 7kms

1. Leave the car park and take the path down to the Riverside Cafe and picnic area. (Also the location of a disabled car park). The first part of this walk - up to stage 1 - is accessible by powered wheelchairs/scooters and may be accessible by manual wheelchairs with assistance.

2. Turn left and follow the surfaced path along the riverbank. This path then slopes up away from the river bringing you out onto a tarmac drive that leads to Henstar Road (where it links up with Walk No.4).

3. Turn right and follow this road, passing the household waste recycling centre on your left. Keep to the road and note the stunning riverside views to your right. Also views of Henstar Road. Continue through where it is signed "Private Road - Footpath Only". You will pass Fishes and Peggy Hill Farm on your left as you approach Shuttleworth Farm. Access for wheelchairs is not possible beyond this point.

4. Take the kissing gate to the right of the main farm gates (signed Ribble Way) and continue, via a second kissing gate and a gate on a track, that runs alongside the river. You will pass an aqueduct, carrying the piped water supply from Flows Water, then come to a weir and flow measurement station.

5. Take a diagonal route away from the river across a field then over a small footbridge. As you approach Mitton you will glimpse its Medieval Church and Hall. The path then brings you out on the Whalley-Mitton road next to the Aspinall Arms.

6. To continue the walk, turn left and go past Mitton Hall Hotel and Little Mitton Farm. When the road bends to the right, look for a footpath going off to the left. This takes you through a copse and over a small footbridge. Then through open fields to a stone cross (Hornbliss Cross) where you join the line of a roman road - and link up with Walk 4.

7. From the cross, through a kissing gate into Stanage Hey Community Woodland where you are welcome to wander and picnic. Just before the railway crossing, turn left and continue through the woodland along a tarmac ride. You will come to an old hedgerow/fenceline that links with an existing footpath. Turn left away from the railway and exit the woodland.

8. Bear right across the fields to the true line then follow the path down to Fishes and Peggy Hill Farm. You will pass through the farm gates to a track that runs alongside the farm. The walk brings you out onto the Private Road where you turn right to retrace your route back to Edisford Bridge.

This community woodland comprises 55 acres of native broadleaf trees. A total of 23,000 trees were planted on farmland in 2003 with the help of schoolchildren in Barrow. The woodland is managed by the parish and includes a network of grassy rides for informal recreation.
